**Past, Present and Future. Interdisciplinary Research- a key to the Future European Cultural Space**

that will be held in Romania on 2nd- 4th of November 2012.

The purposes of this high academic international event is to promote interdisciplinarity in the fields of European culture and education and to increase awareness regarding its importance as a tool in educating today's generation for tomorrow, in connecting past , present and future with the ultimate goal to forge a widely shared European identity.

The event will be attended by more that 100 researchers and academic staff, school inspectors and instructors, counsellors, school curriculum advisers who will share their experience and knowledge on the deeply complex and increasingly varied concept of
